PHEASANT DORE' (Golden Pheasant)

We are this year introducing our seedling A-64 which we have shown at several of the shows and you have been so interested in, but which we would not introduce until we had stock enough to give it to you at a low price. That time has arrived and so here it is.

Pheasant Dore' A pure self color commercial yellow, tall grower such as its parent (Primate) Mid season bloomer with up to eleven open blooms at a time, very prolific and bulbets grow well. Foliage clean, healthy and of good color stem not wirey but not heavy, cuts well and keeps well after being cut. Color deep yellow without any markings and does not fade after being cut. Florets medium sized and placement perfect. What more could you want in a commercial? You be the judge.

Growers price mixed graded dozen \$4.00

Retail price \$1.00 per large size bulb.
